Custom made for your team · Edition October 2026 · info@dashprosports.ca · 1-250-480-8816

How to build your jersey

Five choices and we draw your mock-up. Everything can be made in your colours, with your crest, names and numbers.

1

Pick a jersey type

Cut and sewn, sublimated, hybrid, reversible, practice, camp or retail (page 3).

2

Pick your crest and numbers

Tackle twill (or direct embroidered), sub-stitched, sublimated or printed crest. Tackle twill, sublimated or printed (DTF or screen print) names and numbers (pages 4 and 5).

3

Pick a neck style

Our standard V-neck or one of seven optional neck styles (page 6). Any stripe layout goes with any of them.

4

Pick a number style and colours

Add matching socks (page 7). Choose a team number style (page 8 on). Use the pro team colour codes at the back, or send us your own PMS codes.

5

Send your crest

Send your logo as a vector file (AI, EPS, PDF or SVG). We send a mock-up for approval before production.

Team names identify colours and number styles only. All team names, logos and uniforms belong to the NHL and its teams. Dash Pro Sports is not affiliated with the NHL.

Jersey types

Pick how your jersey is made. Every type can use any neck style and colours in this guide.

01 · CUT AND SEWN

FIGHT STRAP INCLUDED

Every stripe and panel is cut and sewn in. All decoration is tackle twill: numbers, crest, name bars and sponsor logos. Direct embroidery is also an option. The classic pro jersey.

02 · SUBLIMATED

FIGHT STRAP INCLUDED

Unlimited design. Any colours, fades, patterns and graphics are dyed into the fabric, with sublimated crest, names and numbers. Light and breathable.

03 · HYBRID

FIGHT STRAP INCLUDED

A sublimated jersey with a tackle twill crest stitched on. The pro look up front, with the unlimited design of sublimation.

04 · REVERSIBLE

NO FIGHT STRAP

Home and away in one jersey: a dark side and a light side, with sublimated numbers on both. Great value for minor hockey and tournaments.

05 · PRACTICE JERSEYS

FIGHT STRAP INCLUDED

Solid-colour practice jerseys in multiple colours, or pick one of our design templates. Decorate with screen print, DTF, direct embroidery or tackle twill.

06 · CAMP JERSEYS

FIGHT STRAP INCLUDED

Light, low-cost jerseys for camps, tournaments and spring hockey, with a printed camp logo and numbers (screen print or DTF).

07 · RETAIL JERSEY

NO FIGHT STRAP

For fans and team stores. Cut and sewn or sublimated, with single-layer elbows and single-layer shoulders.

GOOD TO KNOW

Fight straps come on every jersey except reversible and retail jerseys.

Tackle twill covers numbers, crests, name bars and sponsor logos.

Unlimited design means any colours, fades, patterns and graphics on sublimated jerseys and socks.

Team names identify colours and number styles only. All team names, logos and uniforms belong to the NHL and its teams. Dash Pro Sports is not affiliated with the NHL.

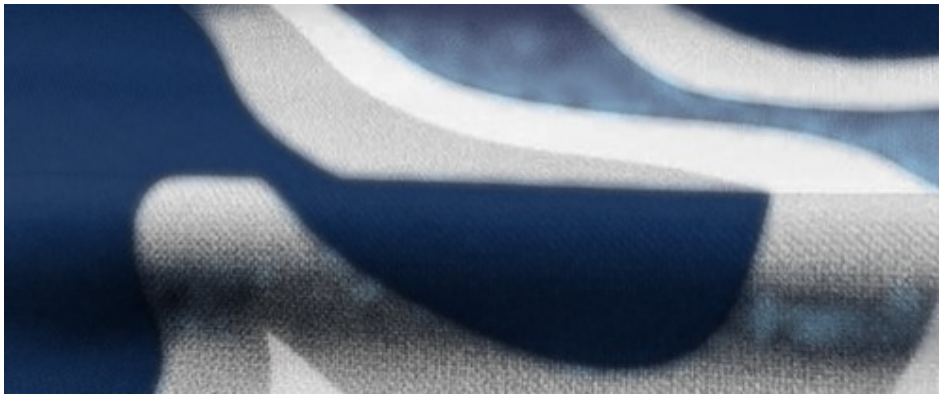

Fabric and crests

Stitched jerseys use pro mesh with sewn-in stripes. Sublimated jerseys print every colour into the fabric. Your crest can be made four ways.

Stitched fabric

Pro mesh. Stripes and panels are sewn in. Choose from a variety of dyed fabric options.

Sublimated fabric

Colours and graphics dyed right into the fabric. Choose from a variety of fabrics.

CREST OPTIONS

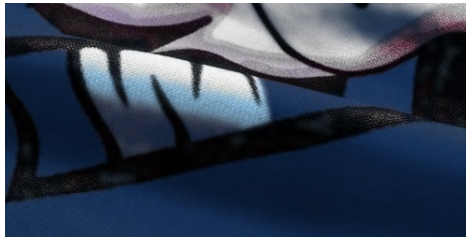

Tackle twill crest

Thread stitched around the logo on the jersey for a premium look. Option for a direct embroidered logo.

Sub-stitched crest

A sublimated twill patch stitched on. Full colour detail with a stitched edge.

Sublimated crest

Dyed into the jersey. Unlimited colours, no weight.

Printed crest

Heat-applied print (DTF or screen print). Best for practice and camp jerseys.

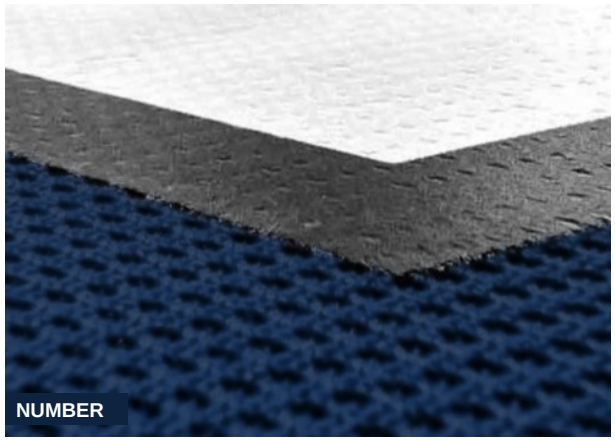

Team names identify colours and number styles only. All team names, logos and uniforms belong to the NHL and its teams. Dash Pro Sports is not affiliated with the NHL.

Names and numbers

Back numbers, sleeve numbers and name bars can be made three ways. Mix and match with any jersey type.

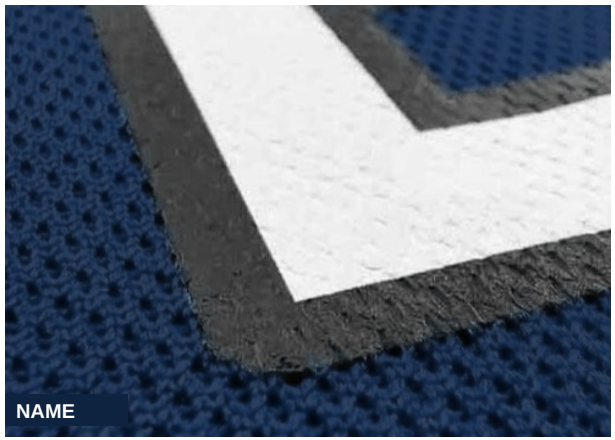

TACKLE TWILL

Twill cut and stitched on, one, two or three layers. The pro standard for cut and sewn jerseys. Option for direct embroidery.

SUBLIMATED

Dyed into the jersey, so nothing peels, cracks or adds weight. Used on sublimated and reversible jerseys.

PRINTED: DTF OR SCREEN PRINT

Heat-applied. DTF prints any detail in full colour, great for small runs. Screen print is the best value for larger runs.

Team names identify colours and number styles only. All team names, logos and uniforms belong to the NHL and its teams. Dash Pro Sports is not affiliated with the NHL.

Neck styles

#0 is our standard neck. Every other neck style is available on all DPS jersey types, in your colours.

Every DPS jersey comes with our branded neck tape and DPS size label inside the collar, and a DPS hang tag. Collar, trim, insert and lace colours can all be matched to your team.

Team names identify colours and number styles only. All team names, logos and uniforms belong to the NHL and its teams. Dash Pro Sports is not affiliated with the NHL.

Hockey socks

Match your socks to your jerseys. Every sock is made in your team colours and stripe pattern.

01 · PRACTICE SOCK

Single-layer sock in your team colours. Light and simple, and tough enough to use as a game sock.

02 · PRO GAME SOCK

Our 800 Pro game sock, with a Kevlar option for cut protection. Double-layer front that is easy to sew and fix, ergonomic top mesh, a snug ankle elastic and Velcro extenders to fit every player. 290 GSM fabric.

03 · SUBLIMATED SOCK

Unlimited design. Any colours, fades, patterns and logos dyed right into the sock to match a sublimated jersey.

Team names identify colours and number styles only. All team names, logos and uniforms belong to the NHL and its teams. Dash Pro Sports is not affiliated with the NHL.

Team number styles (1 of 4)

Pro team number styles, shown on dark and light jerseys. Tell us the style name and we cut your numbers in your own team colours.
