HOW TO MEASURE

Lay the jersey flat and measure in inches.

A · Chest width: straight across, 1″ below the armpits, side seam to side seam. Double it for the full chest (an AXL-56 is 28″ across, 56″ all the way around).

B · Sleeve length: from the centre of the collar at the back of the neck, along the shoulder, to the end of the cuff.

C · Body length: from the neck seam straight down to the bottom of the jersey.

Our jerseys are pro game cut. Measurements are a guide and can vary ±½″.

For all DPS jerseys except the 9000 Pro game jersey, which has its own size chart.
